2. Review and approval of minutes from June 26, 2007 Engineering Conference

3. Old Business:

- Reviewed draft proposal on Belt Cleaner Standard. George Mott to e-mail copies of Todd Swinderman's write up for review
- Copies of CEMA 575-2000 handed out for review. Comments to be send to George Mott. Some suggestions include putting more emphasis on impact energy vs impact force, also purpose of standard to be added.

4. New business:

- Martin Engineering is currently in discussions with MHSA regarding possible certification training course which would permit maintenance personnel to adjust or replace conveyor components while belt is running. Requested if CEMA or member companies would be interested in joining the discussions. Request to be made to CEMA board
- None of the new safety labels for conveyor accessories have been ordered to date. Several companies indicated that they will be ordering.

There was no other business.

5. Meeting was adjourned 1:45 p.m..
