Oakwood, VA – West River Conveyors & Machinery Company

announces what a good fit Sumitomo-Hansen's PR UniMiner Drives are for their Conveyors. Sumitomo-Hansen's P4 UniMiner (www.sumitomodrive.com) drives are used on many of West River's belt drives based on the flexibility and high customer satisfaction of the products. "The design layouts and features of the UniMiner drive work well with our application", states Jerry Roulett, President of West River. "The selection of sizes and offerings available per HP and RPM for the Hansen P4 UniMiner Drives fit the needs of West River's applications perfectly. We have had great customer acceptance with the P4 UniMiner. Customers who have installed our drives in their operations will speak highly about the quality of the reducers. We've been using Hansen UniMiners on our belt drives for over a decade now." www.westriverconveyors.com

Fort Smith, AR – Baldor Electric Company, now offers a complete line of Dodge elevator pulleys, available in drum or single disc design with HE, XT, QD or Taper-Lock hubs and bushings. Heavy Duty elevator pulleys meet CEMA standards, but these pulleys are also available with Mine duty extra construction that features the Dodge integral hub design for ultimate strength and durability.

Baldor's Dodge elevator pulleys are available in diameters from 6" through 72", with face widths up to 120". There are four lagging options available:

- Holz SLIDE-LAG®, with double chevron grooves capable of bi-directional pulley rotation, available in standard SBR rubber or optional SOF static conductive, oil and fire resistant rubber.
- Dodge FOS Vulcanized Lag is an exclusive offering that is flame and oil resistant and available with a variety of grooving options.
- SBR Vulcanized Lag is a styrene-butadiene rubber offering good abrasion resistance and available in a wide range of thicknesses and grooving options.
- Dodge D-LAG Vulcanized Lag – an exclusive natural rubber compound that offers excellent resistance to abrasions, cuts and gouges for an extended life.

SUMITOMO DRIVE TECHNOLOGIES (SMA)

ADDS VP'S AND DIRECTORS TO COMPANY!

Chesapeake, VA, October 29, 2013 – Sumitomo’s Drive Technologies, Sumitomo Machinery Corporation of America (SMA) announces the following improvements to their organization:

- **Jon Murphy Rejoins Sumitomo Machinery Corporation of America as Vice President of Sales** – The U.S. Headquarters for Sumitomo Drives Technologies, is please to welcome Mr. Jon Murphy to the executive management team as Vice President of Sales effective October 1, 2013.

Mr. Murphy will be responsible for leading the U.S. sales team, aftermarket, and customer service divisions of SMA to bring the greatest value to our customers. Mr. Murphy’s career in the power transmission industry began with SMA in 1993, where he held the position of District Sales Manager. Mr. Ronald Smith, CEO and President of SMA, welcomes Mr. Murphy to the executive team, stating, “Jon Murphy is the epitome of our corporate values and has shown strong leadership, technical expertise and teamwork throughout his career”.

- **Marcelo Kuramoto Promoted to Managing Director of Sumitomo Industrias Pesadas do Brasil Ltda.**

– The global headquarters for Sumitomo’s Power transmission and Control group, headquartered in Tokyo, Japan, and the Americas headquarters, and SMA, headquartered in Chesapeake, VA, USA, are pleased to announce the promotion of Mr. Marcelo Kuramoto to the international executive management team as Managing Director of Sumitomo Industrias Pesadas do Brasil Ltda, effective October 22, 2013.

- **Arthur Pantelides, Ph.D., Promoted to Senior Director of Strategic Planning and Control for Sumitomo Machinery Corporation of America** – The U.S. Headquarters for Sumitomo Drives Technologies, is pleased to announce the promotion of Dr. Arthur Pantelides, to the newly created position of Senior Director of Strategic Planning and Control. Dr. Pantelides’ leadership has been instrumental in strategically integrating and optimizing the organization’s technical, quality and engineering capabilities. In his new role, he will become integrally involved in developing and establishing new strategic goals for all of SMA and its Latin American subsidiaries.

HAPMAN RAISES THOUSANDS IN FUNDS TO SUPPORT THE ALZHEIMER'S ASSOCIATION® CARE, SUPPORT, AND RESEARCH PROGRAM

alzheimer's association®

Kalamazoo, MI – Hapman, an industry leading manufacturer of bulk material handling equipment, announced the on-going success of their cause marketing program to benefit the Alzheimer's Association in July 2013 to develop the program and the funds raised help support vital research for prevention, treatment and cure of the diseases, as well as care and support. Greg Patterson, Hapman Vice President, states, "I am very pleased to report that our donation program for the Alzheimer's Association has been extremely successful to date. As of September 30, 2013 donations from the Helix® Flexible Screw Conveyor have exceeded our goal by thousands of dollars. Our customers and our employees have worked to support the Alzheimer's donation campaign and I want to thank them all. Our work is not complete however; there are still two months left in our campaign which extends through the end of 2013. I encourage everyone to visit our dedicated webpage to learn more about our personal story in battling Alzheimer's disease and how funds raised will be used to support much needed research."

The Hapman webpage dedicated to the fund raising campaign benefiting the Alzheimer's Association can be found at www.hapman.com/alz

The Hapman commitment is a donation of \$250.00 for Helix order from July 1, 2013 to December 31, 2013, with a minimum guarantee of \$25,000.

ERIEZ ANNOUNCES PROMOTIONS

Erie, PA – Eriez announces two promotions, one to their Market Manager-Heavy Industry and the other to Product Manager-Separation.

- Charlie Ingram, Eriez® Vice President of Sales and Marketing, announces the promotion of **Bill Dudenhoefer** to Market Manager-Heavy Industry. "In this role, Bill will lead our efforts to increase order revenue and market share, while managing the complexities associated with the 'big engineering jobs' common to this market," says Ingram.
- Eriez® announced that **Eric J. Confer** has been promoted to Product Manager-Separation, effective October 18, 2013. Confer's responsibilities will include overseeing and handling separation inquiries and orders, product development and improvements, marketing, training and sales forecasting, as well.
