DOS SANTOS INTERNATIONAL STARTS UP FIRST OF TWO SANDWICH CONVEYORS FOR PARIS TUNNELING PROJECT

Dos Santos International is now starting up one of two DSI GPS (Gently Pressed Sandwich) high angle conveyors for the Paris tunneling Project. DSI was awarded a contract to provide two vertical DSI GPS systems for H+E Logistik. The DSI GPS will each elevate 800 t/h of tunnel muck at a 90° angle. The Grand Paris Express is the most ambitious new subway project in the Western world. The extension is a \$25 billion expansion of the century-old Paris Metro.

A particular challenge of this project was the requirement to provide a versatile system that will be reusable in future projects. Accordingly, DSI designed a system with a high degree of versatility—particularly extendibility. With all the drive and take up equipment concentrated at the head end, DSI designed the vertical portion as a hanging structure which can+ be extended as necessary for higher lifts at future applications. ERIEZ® EARNS AWARD FOREXEMPLARY LEADERSHIP EXPORTING PRODUCTS TO CHILE

U.S. Ambassador to Chile Carol Z. Perez presented to ERIEZ® the *Export Leadership Award* during Expomin 2018 in Santiago, Chile. This prestigious award recognizes Eriez' exemplary leadership in exporting U.S. -made products and services to Chile. "Eriez has exported products to Chile since the 1950s," says Eriez Export Sales director Andrew Goldner. He adds, "While the majority of the products we export to Chile are used mainly in the mining industry, we also supply Chilean companies with equipment utilized in food processing, pulp and paper, plastics, cement, pharmaceuticals and pet food applications." www.eriez.com

MARTIN ENGINEERING—PLANT EXPANSION INCLUDES TRAINING FACILITY WITH LIFE-SIZED CONVEYOR MODELS

Tata Steel Limited after expanding existing plant constructed a dedicated training facility and invited Martin Engineering to spearhead the equipment and safety curriculum using its popular *Foundations* reference book series, which focuses on productivity and safety. The company also installed full-sized conveyor sections so that trainees could experience each component in a controlled learning atmosphere. The program is helping Tata Steel develop a large staff of knowledgeable new technicians and managers. [Click here to read more](#)

SUPERIOR INDUSTRIES NEW CONVEYOR COMPONENTS ACCESSORIES CATALOG

Superior Industries, Inc. has published a brand-new conveyor components accessories catalog. The manufacturer says the 50-page catalog includes data related to product part numbers, measurements, weights, replacement data and more. Components distributors, original equipment manufacturers and dry bulk material producers are invited to access a PDF copy of the catalog at bit.ly/2rIFSGw

“We think the catalog will really simplify and speed the ordering process for our customers,” says Mary Erholtz, Superior’s vice president of marketing. “As we continue to expand our conveyor components product offering, this useful tool will to grow in size and scope.”

SCHNEIDER ELECTRIC EXPANDS ITS ALTIVAR DRIVES FAMILY TO INCLUDE THE NEW ALTIVAR MACHINE ATV340

What if you could deliver top-quality material handling systems while reducing build costs? Fortunately, there’s a variable speed drive that offers a simple way to do so, even as application requirements rise and the pace of technology accelerates. The Altivar Machine ATV340* drive offers cutting-edge application control and advanced, easy-to-integrate automation capabilities. To Learn More, [click here](#). www.schneider-electric.com

KWS MFG MORE POWER AND MORE SPACE! THANKS TO ALL OF THEIR WONDERFUL CUSTOMERS!

More Power at KWS! We are adding more 480-volt service to power all of the new machines we have added! We are also adding new buildings and manufacturing space! Thanks to all of our incredible Customers! For more info on KWS Manufacturing website: www.kwsmfg.com

About Conveyor Equipment Manufacturers Association

The Conveyor Equipment Manufacturers Association (CEMA) is a premier organization whose member companies (Manufacturers and Engineering Companies) represent a select group of industry leaders. For more than 80 years CEMA members have worked tirelessly on three main fronts to advance the industry. Standardization of publications, safety, and statistical reporting. For more information, go to: www.cemanet.org
